

PUMPLUS

AQUASKY HIDROFORS

PumPlus Pressure hidroforis ir ļoti svarīga daļa ūdens apgādes sistēmā. Tas nodrošina ūdens spiedienu noteiktajā līmenī un samazina motora palaišanas laiku.

PumPlus Pressure hidroforiem nav vajadzīga apkope, iebūvēta diafragma un polipropilena pārklājums.

Pareizi izvēlēts sūknis komplektā ar "PumPlus Pressure" hidroforu darbosies teicami. Kopā ar visām Jūsu saimniecības ierīcēm kalpos Jums ilgi un atbilstoši Jūsu vajadzībām.
